LATE BUS TICKETS ISSUED TO ROCHESTER PUPILS

On September 25, 1958 the Rochester School Committee authorized the use of late bus tickets for those pupils legitimately detained for the 7th period at New Bedford High School. Pupils having these tickets will be properly identified as entitled to the use of late service.

Because liberties have been taken with the plans set up earlier this month, it has become necessary to use the ticket system. Effective October 22nd each New Bedford High School students must give the driver a late bus ticket whenever he wishes to use the 3:15 P.M. service. Without the ticket he will be refused transportation, nor can the need for the ticket be avoided by walking to the Vocational High School, New Bedford and boarding the bus at that point.

To obtain a ticket, a pupil must present a yellow permit, showing he was detained for the 7th period, at the high school office. He will be given a late bus ticket for use that day in exchange for the yellow permit. The ticket will be given the bus driver when the pupil gets on at the high school and the driver will turn the used tickets into the Rochester School office. Additional rules relative to procedure in obtaining these tickets may be made by John F. Gracia, principal of the New Bedford High School.

4-H STARTS NEW YEAR

"Over 125 local 4-H clubs throughout Plymouth County are or soon will be organizing to carry on a new year of 4-H activities in their communities, it has been announced by George W. Jones, County Extension Agent in 4-H Club work.

"During the past year nearly one thousand boys and girls of Plymouth County have participated in the 4-H club program under the guidance of over 200 volunteer leaders.

"4-H club membership is open to any boy and girl between 10 and 21 years of age. Clubs select their own officers, plan and conduct programs based on community activities under the direction of volunteer adult leaders.

"Each member of a 4-H club has a 4-H project. The 4-H club project gives young people an opportunity to 'learn by doing'. As a member of the 4-H project 4-H members may learn to make their clothing, own and care for livestock and poultry, plan and carry out some home beautification activities and develop flower and vegetable gardens, prepare meals, preserve foods, make items for their home, study and develop conservation and many other related activities. The 4-H program is part of the National Education System as a Co-operative Extension Work sponsored by the Federal Extension Service of the United States Department of Agriculture, the Co-operative Extension Service of the University of Massachusetts and the Plymouth County Trustees County Aid to Agriculture. AMERICAN FIELD STUDENTS MEET IN NEWTONVILLE

All American Field Service students, their American parents, and United States students who had spent last summer abroad in the American Field Service program, together with members of the local American Field Service committees in Massachusetts were entertained last week at the Methodist Church in Newtonville, Mass. Attending from Marion were Mrs. Thomas C. Weaver and her exchange daughter, Miss Zarin Dastur; Mrs. Isabel Talamo-Rossi and Otis C. Severance of the Marion committee.

Each American Field Service student was interviewed individually by staff members of the New York American Field Service central office, and Mr. Edgell, AFS executive, held an open forum with parents and returnees. Students from the Newton High School arrived at 9:30 to pick up the 31 foreign high school students now living in Massachusetts, for the week-end. The program planned for Saturday included a visit to the Boston Globe plant, Science Park, the new Planitarium and Harvard University. In the evening a folk dance, led by Professor Eddy Nadelo of Sargent College, was enjoyed at the Jewish Community Center. Sunday was a family day with a visit to the Rodeo in the afternoon and party at the home of Jane Gilbern of Newton, returnee from Turkey. Monday, all attended classes at Newton High School and a reception closed the week-end in the social room where Harold Howe, principal, spoke.

Many friendships were formed between Newton students and their guests from overseas. Miss Dastur, who is from Karachi, Pakistan and attending Wareham High School, enjoyed a happy surprise in meeting again Miss Jennie Clark, a Cambridge student who had spent last summer in Karachi.

The countries represented were Germany, Denmark, Pakistan, Japan, Sweden, Turkey, Italy, Indonesia, England, Norway, Argentina, France, Iceland, the Phillipines, the Netherlands, Spain and Iran.

FUNGUS GROWING ON WOOD IDENTIFIED

The peculiar fungus found growing on rotted wood at the Charles Little place on Brandt Island Road, Mattapoisett has been identified as Mutinus Eligans, commonly known as Stink Horn. Its fetid smell attracts flies who feed on the green slime at the top. The spores are located in this slime and are spread by the flies.

ZONOLITE INSULATION

Heat rises. Therefore, attic insulation is of the greatest importance. Properly installed, attic insulation can reduce fuel bills by 33⅓%.* It is also a barrier against summer's sun, keeping upper rooms as much as 10 cooler. Fortunately, the attic insulation job is the easiest and most economical to perform. Under normal conditions, you can do the job yourself with Zonolite Insulation — *in less than a day*. And Zonolite cannot be fluffed up — pours to the same correct density throughout the job.
